## Safe at Sea

OF NORWAY ®
Regatta

Regatta AS' head office is located in Ålesund, a beautiful Art Nouvea town on the west coast of Norway. Ålesund is also the largest port in Norway for export of fish and fish products. Long traditions and close association with those whose livehood depends of the sea have resulted in the development of high levels of expertise and service to the fishing and shipping sectors. This has inspired Regatta to develop a broad range of innovative, high quality floatation products aimed to give people a safer life at sea. We have worked with floatation products for 50 years and are one of Europe's leading producers of lifejackets and floatation products. Ongoing research and product development in accordance with requirements, has enabled the company to achieve substantial knowledge and experience in this area.

Our vision is **Safe at Sea**. We want to provide our customers with a sense of being safe when they are at sea or over water, whether for work or pleasure. We are in continuous dialogue with our users, a policy which has been crucial to the success of our products.

# What type of floatation product is best for you?

**Our product range has never been wider or more varied. However, only you know what your needs are. Let us together find the right buoyancy products for you and your needs.**

### FLOATATION PRODUCTS CATEGORIES:

The body does not weigh as much in water as it weighs on dry land. 50N (N = the unit of buoyancy. 10 N = 1 kg) is therefore normally enough to maintain an adult's buoyancy. Regatta's products are CE marked, which certifies that they are according to European Standards (EN/ISO).

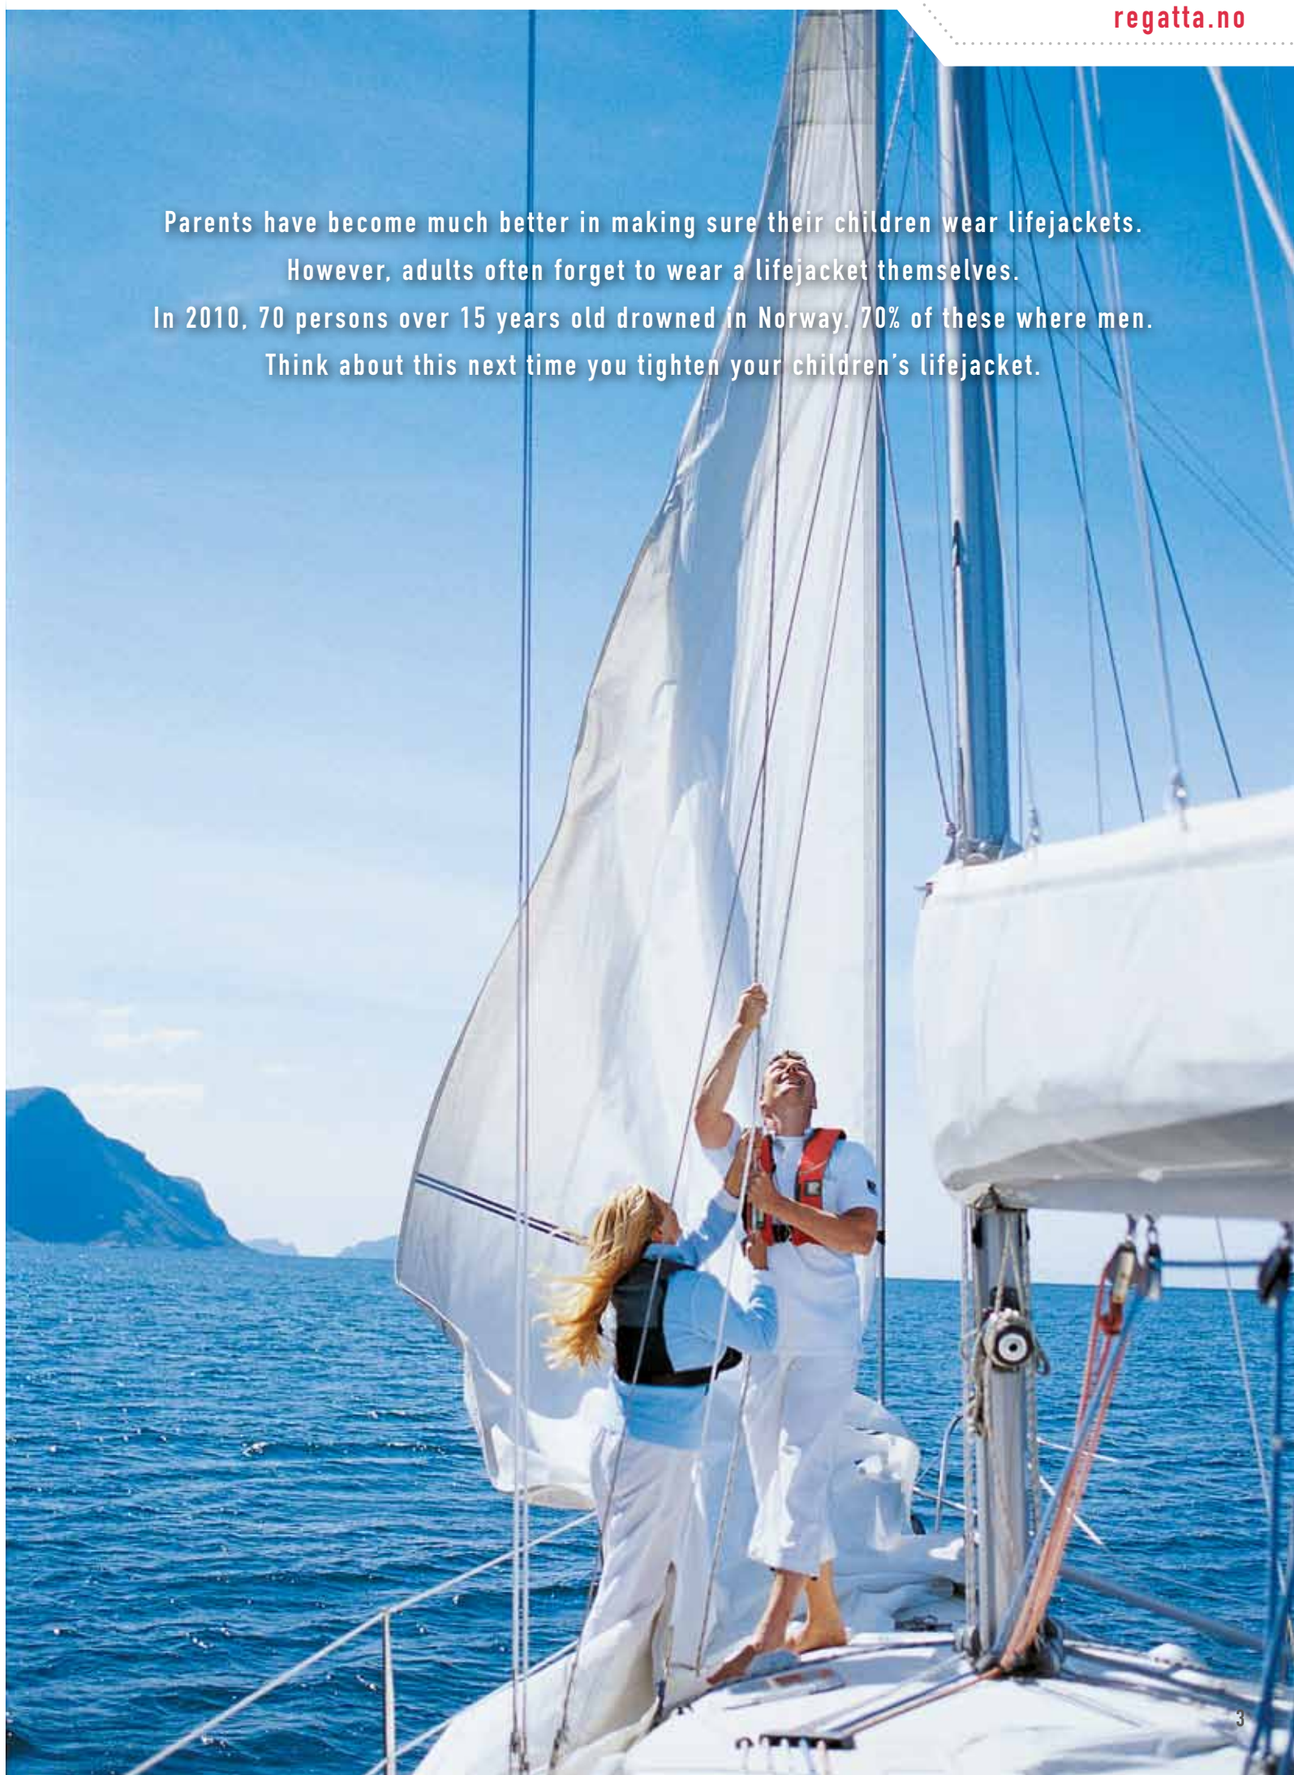
### The main buoyancy standards and approvals according to the EN-ISO standards:

**50N – ISO 12402-5 / EN 393**
Flotation vests, floatation jackets, floatation suits. Only for those who can swim. For use in protected waters where help is nearby. Not a lifejacket!

**100N – ISO 12402-4 / EN 395**
High fluorescence lifejackets with reflective stripes. Should be able to demonstrate, using the stipulated test procedures, that the jacket can turn a person on to their back. Persons that cannot swim should always use a lifejacket. For use in protected waters.

**150N – ISO 12402-3 / EN 396**
Lifejackets. Coastal and offshore waters used with foul weather clothing. Buoyancy must be carefully evaluated where heavy tools or equipment are used.

**275N – ISO 12402-2 / EN 399**
Inflatable lifejackets. Offshore, shipping and industry for extreme conditions. Can be used with strong protective clothing, most survival suits and safety harnesses.



Parents have become much better in making sure their children wear lifejackets.
However, adults often forget to wear a lifejacket themselves.
In 2010, 70 persons over 15 years old drowned in Norway. 70% of these where men.
Think about this next time you tighten your children's lifejacket.

## Regatta Breeze

Floatation jackets with removable sleeves. Sleeves are attached with zips. Windproof and water repellent shell material. Windproof zip at the front. Lower edge tie cord. Fleece-lined collar. Good pockets, all with zips. D-ring for attachment to emergency stop.

### 640

Colours: Red/grey

Size: 10/12 years, XS - XXL

### 641

Colours: Blue/grey

Size: 10/12 years, XS – XXL

## Regatta Racing

The vest has a modern and close-fitting design. Four adjustable belts with quick-release buckles for maximum adjustment. Wear-resistant shell in fluorescent yellow makes it the right choice for wakeboard, tubing or water-skiing activities. The floatation vest is equipped with a D-ring for attachment to an emergency stop.

Colours: Fluorescent yellow/grey/black

Size: 30/50, 50/70, 70/90 and more than 90 kg

## Regatta Active

Floatation suit in windproof and water repellent shell material. Reflective tape on hood, sleeves and shoulders. Neoprene cuffs, zip for ventilation under arm. Convenient fleece-lined pockets. Removable hood. Belt with quick-release buckle. Safety harness* tunnel. Whistle and D-ring for attachment to emergency stop.

* Safety harness is extra equipment

### 911

Colours: Navy blue/fluorescent yellow

Size: 10/12 and 14/16 years, XS - XXXL

## Regatta Coastline

Floatation suit with windproof and water repellent shell material. Rubberized cuffs with Velcro tightening. Internal cord for tightening around the waist. Zip for ventilation under arm. Functional pockets. Reflective tape. D-ring for attachment to emergency stop. Fluorescent yellow hood which can be folded into the collar.

### 953

Colours: Red/navy blue

Size: 8/10, 10/12 and 14/16 years, XS - XXL

**When a child's vest is too small and an adult suit is too large.** As you grow, you also develop new preferences and needs. In response to this, we are now launching a range of buoyancy aids for children and young adults. For many years adults have been able to enjoy Regatta's windproof and water-repellent floatation jackets and warm and comfortable floatation suits. Now children can also enjoy these buoyancy aids to keep warm, dry and safe.

## Floatation vest to wear when at sea or over water!

Signal – the new sporty floatation vest from Regatta has a modern look inspired by maritime details. When wearing a Signal floatation vest you will feel comfortable, trendy and safe at the same time!

**Possibility for embroidery / branding -optional placement**

50N

## Regatta Signal

Floatation vest designed with inspiration from the maritime environment. Windproof and water repellent shell. Hood – folded in the collar – in fluorescent colour for high visibility when in use. Crotch strap, can be stored when not in use. Zip in front and cord for individual adjustment. Pocket with zips. D-ring for attachment to the emergency stop.

Regatta Soft Elias Princess

**Our children are the most precious things we have.** Parents want high quality and comfortable lifejackets their children will enjoy using. Regatta vests are designed to be used and have strong waist and crotch straps and a robust zip at the front. Children are active and curious and need freedom of movement. Our vests support this. They are designed to provide high levels of freedom of movement and do not have any obstructions that can reduce the child's field of view. It is important that children enjoy using the vest, which is why we have materials that are both soft and pliant, so children are as comfortable as possible. NB! Ensure that the vest is not too large or too small for your child. Read the user manual thoroughly and always watch children when they are near, in or on the water!

## Regatta Action Explorer

Action Explorer floatation vest is for the active user which has high demands to details and functionality. The vest is designed for sailing, paddling and water sports where comfort and freedom of movement is essential. The vest fits well to the body with adjustments in front and on shoulders. Two brackets for light – right side front and left side back (CE–approved light is accessories). Equipped with crotch strap.

| | |
|---|---|
| Colours: | Mango, Black and Red |
| Size.: | 30/50, 50/70, 70/90 and more than 90 kg |

## Regatta Pop Wyper/Norway

POP Wyper is a floatation vest with a fresh design with extra details as zipper in front and a handy pocket also with zipper-closure!
POP Norway is this year's special made floatation vest! Helene, at the age of 12, won the competition in TV2's summer program with this comfortable vest with the Norwegian flag and safety as main features! Belt with click buckle, adjustments for best fitting and D-ring – on both floatation vests.

| | |
|---|---|
| Colours: | Red and Navy blue |
| Size: | 30/50, 50/70, 70/90 and more than 90 kg |

**Regatta Pop Norway**

**Regatta Pop Wyper**
Navy Blue

**A versatile vest for many activities including windsurfing, paddling or fishing from rocks.** A vest for all-round outdoor enthusiasts with varied interests or for those who need an all-round vest. You can safely use the vest for windsurfing, kayaking and canoeing, or for pleasant trips along the river with a can of worms and your fishing rod on your shoulder. Please make sure, for your own safety, that the vest fits correctly. Remember to adjust it so that the vest is correctly positioned. You are then ready to enjoy your leisure pursuit.

50N

## Regatta Racing

The vest has a modern and close-fitting design. Four adjustable belts with quick-release buckles for maximum adjustment. Water resistant shell in fluorescent yellow makes it the right choice for wakeboard, tubing or water skiing activities. The floatation vest is equipped with a D-ring for attachment to an emergency stop.

| | |
|---|---|
| Colours: | Fluorescent yellow/grey/black |
| Size: | 30/50, 50/70, 70/90 and more than 90 kg |

**Created for high speed action-packed days on the water.** Dressed in this fluorescent yellow vest, you skim across the waves, water-skis on your feet. Belts fitted with strong and high quality quick-release buckles ensure that the vest fits perfectly. Everything is thoroughly thought through and tested so that you can concentrate on the exhilaration of the water, speed and the adrenaline. Fluorescent yellow has been chosen to ensure that you are highly visible and can be seen by others. The design of Regatta's water sport vest is as focused on safety and comfort as it is on speed and excitement.

## Regatta's floatation suits have saved lives!

It is important, when an accident occurs, wearing the correct clothing. The floatation suits are tested for both extreme environments and for open sports boat trips. The suit has become a good companion for many seafarers. The suits are light and features ventilation which makes them perfect for use in working situations. The buoyancy materials also provide insulation against the cold and protection in emergency situations. Windproof and water-repellent materials and taped seams prevent leaks, and ensure that you remain both warm and dry in your Regatta floatation suit. Everything you need to feel safe and comfortable at sea. All Regatta floatation suits are approved in accordance with EN 393 standards. In addition to ISO 15027 class D for thermal protection.

### Regatta Active

Taped seams. Drains in sleeves and legs. Neoprene cuffs. Long leg zip for easier donning. SOLAS reflective tapes on hood, sleeves and front for increased visibility. Practical fleece-lined pockets. Removable hood. Zips under arms for ventilation. Adjustable belt with quick-release buckle and safety harness* tunnel (extra equipment). Whistle in front pocket and D-ring for attachment of emergency stop. Equipped with loops for attaching an inflatable lifejacket.

**Approval:**
EN 393 Floatation. Tested and found in compliance with ISO 15027 class D-thermal protection.
* Safety harness is extra equipment

**911**

| | |
|---|---|
| Colours: | Navy blue/fluorescent yellow |

Regatta Sportline 954

### Regatta Offshore Worksuit

The shell is approved in accordance with the "Standard for limited flame spread EN 533-1", windproof and water repellent and has taped seams. High visibility SOLAS reflective tapes on the hood, sleeves and shoulders. Ventilation zips under the arms. Legs with long zippers for easier donning. The pockets are practical with fleece-lined, drains in sleeves and legs. Adjustable hood designed for use with hard hats and is equipped with whistle. Designed primarily for professional use.

**Approvals:**
EN 393 Floatation,
Outher fabric EN 533 -1 Standard for limited flame spread. Outher fabric EN 1149 anti-static. Tested and found in compliance with ISO 15027 class D-thermal protection.

**957**

| | |
|---|---|
| Colours: | Red/fluorescent yellow |
| Size: | XS - XXL |

Regatta Offshore Worksuit 957

**Built for extreme conditions.** You want everything, so you get everything. Regatta Harbour is constructed from windproof, water repellent and flame-retardant materials and has taped seams. Good ventilation is provided by under arm zips. The floatation jackets have practical fleece-lined pockets and sleeves with neoprene cuffs and drains. A floatation jacket created for those who enjoy being on the sea when the wind is screaming and others creep under the blankets with a cup of hot chocolate. You feel safe in a Regatta Harbour.

50N

## Regatta Harbour

Shell of windproof and water repellent material with taped seams. The SOLAS reflective tapes and fluorescent shell provide the floatation jacket with the visibility required to be approved in accordance with the 'Visibility Requirement'. Under the arms zips for ventilation. Neoprene cuffs. Practical fleece-lined pockets, whistle, drains in sleeves and lower edge. D-ring to attach the emergency stop. Loops for fixing inflatable lifejacket. Removable hood adapted for hard hat usage.

**Approvals**: EN 393 Floatation, EN 471-3 Visibility, EN 1149 anti-static, EN 533 -1 Standard for limited flame spread.

### 907

| | |
|---|---|
| Colours: | Fluorescent yellow/navy blue |
| Size: | S - XXL |

Regatta Harbour 907

## Regatta Harbour

The overall/bib has a light weighted and comfortable design. The shell has been approved in accordance with 'Standard for limited flame spread' and matches the Harbour floatation jacket's design and colors. Braces - adjustable and elastic with quick-release buckles. Two pockets with zips at the front. Designed without external details which can get snagged! The Harbour overall do not have buoyancy elements.

**Approvals:** EN 533 -1 Standard for limited flame spread. EN 1149 anti-static.

### 107

| | |
|---|---|
| Colour: | Navy blue |
| Size: | S - XXL |

Regatta Harbour 107

**To all-weather sailing enthusiast.** Regatta Offshore Extreme is designed in close collaboration with experienced mariners. The suit will enhance the pleasure – and safety - of the sailing experience. With fully lined breathable outer fabric of Entrant Dermizax® PE, which is waterproof and windproof, and panels of Kevlar® to reinforce arms, knees and seat. All seams are taped. This is the ideal, top-of-the-range, two-piece, safety and protective suit for the serious, all-weather sailing enthusiast - especially in rough seas and storm conditions.

Approved according to ISO 12402-6 New standard

150N

## Regatta Offshore Extreme

The jacket has a 150N inflatable lifejacket built-in. It is equipped with a safety harness and crotch strap together with whistle and SOLAS approved reflective tapes. This makes the jacket fitted for most situations.

The sailing gear has an outer fabric in high visibility colour made of Entrant Dermizax® PE, water- and windproof. With reinforced panels of Kevlar® on elbows, knees and seat. All seams are taped.

The sailing gear is specified and manufactured to give a product which is second to none in terms of rugged, dependable performance. Approved safety product according to ISO 12402-6 150N.

### Regatta Wind Cap

Windproof cap without brim, which gives the user a clear and full view. Fits well to the head with elastic adjustment.

## Regatta Fisherman

Two piece oilskin-style bib & braces trouser and jacket. Wind and water-tight shell of PVC coated polyester. Fluorescent yellow for increased visibility and practical grey in vulnerable areas. No external details on which to get snagged in equipment when working. Buoyancy is built into the overall. The overall has zones in the sides for ventilation and pockets with zips and flaps. Elastic, adjustable braces with quick-release buckle to help taking on and off quick. Knees are body-tailored and reinforced, as are the lower legs. Pockets for kneepads. The overall is approved in accordance with 'Standard for buoyancy aids' **ISO 12402-5.**

The jacket has double buttoning at the front. Elbows are reinforced and body-tailored. The hood has a brim with a drawstring for adjustment. The jacket does not have buoyancy elements.

Regatta Fisherman

Regatta Fisherman with built-in buoyancy have saved lives!

Photo: Redningsselskapet

**A cooperation which has saved lives!** Regatta Fisherman is the result of a cooperation between SINTEF Helse, Norges Fiskarlag, Gjensidige Forsikring and Regatta AS.

GJENSIDIGE SINTEF

**Protective clothing which improves comfort and safety for both leisure and professional fishermen.** Through generations of testing we, working together with fishermen, have developed the ultimate workwear for all those working in the fishing industry – at all levels. On deck, there is plenty to do and it is not unusual for fishermen to take their jackets off when it gets too hot. We have, for this reason, chosen to locate floatation panels at the front and back of the overall. The elbows and knees are also tailored, to ensure users maximum freedom of movement. Not only professionals should have good equipment!

FISHING NEWS AWARDS 2008
Safety Award
Fishermen's oilskins with built-in buoyancy

DESIGN
Award for Design Excellence
Awarded by the Norwegian Design Council

The Norwegian Design Council has awarded the Regatta Fisherman their **Award for Design Excellence** within the category ready made clothing design.

**Regatta Fisherman**
**Safety Award 2008**

Approved according to
**ISO 12402-5**
New standard

## Do you need a lifejackets which is light and provides maximum freedom of movement?

And which, at the same time, allows you to wear additional clothing underneath? Then an inflatable lifejacket is your best choice.
Regatta's inflatable lifejackets are made for those who are focused on freedom of movement, activity and high levels of safety.
The lifejackets can also be combined with other Regatta buoyancy aids. It is important to emphasize that inflatable lifejackets are technical products which require maintenance.

150N

## Inflatable lifejackets

There are several models which are in different price ranges and are designed to meet different needs. The lifejackets are designed for maximum freedom of movement. Most lifejackets are automatically activated when they come in contact with water. They can also be manually activated by pulling the pull cord or blowing into the nozzle. Adjustable belt, equipped with grab loop and whistle. Requires technical inspection and annual maintenance.

All inflatable lifejackets are designed for persons who weigh more than 40 kg, except Childsafe which is designed for bodyweights of 18-40 kg.

Extra equipment: Crotch strap (Childsafe and Sportsafe are equipped with a crotch strap as standard) and water activated light.

### Regatta Sportsafe

Designed with shorter shape for optimal freedom of movement. Shaped backpanel with pocket for crotch strap. Solid nylon outer cover and "break-out zipper". Bracket for attachment of light etc. (CE –approved light is accessories). Colours: Red and Black.

### Regatta Seasafe

Strong outer cover with integrated lung. Adjustable belt with quick-release buckle. Reflective tape on lung. Grab loop and whistle. Colour: Black and Red.

### Regatta Freesafe

Outer cover with separate lung. Neoprene neck. Lung with wave barrier effect (Interlock). Buckle and D-ring in stainless steel. Toggles for attachment to clothing. Reflective tape on the lung. Grab loop and whistle. Colour: Navy blue.

### Regatta Childsafe

Outer cover with separate lung. Neoprene neck. Buckle and D-ring in stainless steel. Reflective tapes on lung. Velcro closure at the front for better adjustment, crotch strap, grab loop and whistle. Colour: Navy blue.

## Why is maintenance of inflatable lifejackets important?

Inflatable lifejackets require technical inspection and annual maintenance to ensure that the lifejackets work as required when you need them. You can carry out pre-use inspections yourself. Read the user manual carefully! Check that the vest is intact before use. Open the cover and check the lung itself. Make sure that the $CO_2$-cylinder is fully screwed into place and is not damaged. Check that the end cap is screwed fully into place and that the indicator clip is correctly in position. Ensure that the pull cord is placed outside the outer cover.
See instructions in the product's packaging or go to www.regatta.no for more information.

## Replacement of bobbin type HR

• Date stamped bobbin (production date)
• Bobbin shape ensures correct fitting

• Ensure that the end cap is screwed fully into place

• End cap displays a green indicator when correctly fitted

## Change/inspection of $CO_2$-cylinder

• Replacement after cylinder has been discharged
• Replacement of gasket
• Visual control

• Ensure that the cylinder is fully screwed into place

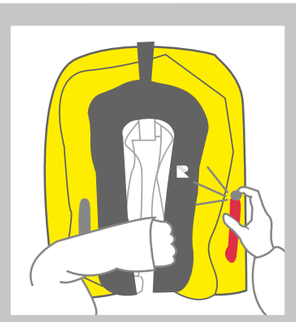
## Inflatable lifejacket with Interlock lung

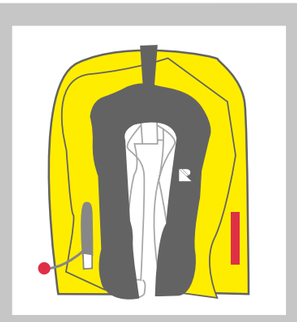
Operating head UM

Previous version of Operating head HR

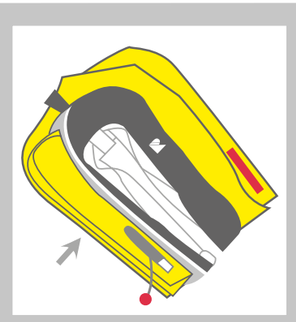
## Correct packing of inflatable lung with separate outer cover



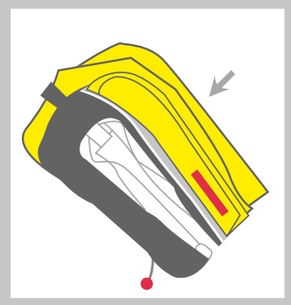
Remove all the air by pressing the valve cap on the nozzle and applying pressure to the lung.



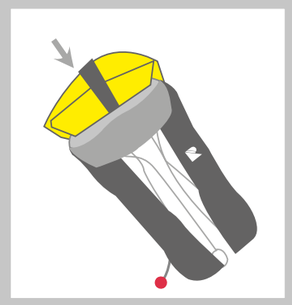
The lifejacket is flattened and is prepared for packing.



Fold the lung up. First fold the side where the re-arming mechanism is found. Remember to close the Velcro opening. Fold in layers as shown*. The pull card is to be fed out through the Velcro.



Then fold the opposite side. Remember to close the Velcro opening. Ensure that the nozzle is easily accessible. Attach the grab loop over the nozzle.



Finally, fold the vest collar section. Ensure that the belt strap is centred.

The inflatable lung must not be rolled.

* Inflatable lung must be folded.

Approved according to the new international standard for INFLATABLE LIFEJACKETS ISO 12402-3
